Death in the Air: Globalism, Terrorism & Toxic Warfare By Leonard Horowitz

Silently killing us, our family and friends, the global plagues and toxic menaces are here, yet where are you? If you are like most Americans, you've become distracted by pastimes, passions, pleasures and psycho-sensory over-stimulation. The "Technotronic Era" is here. With it comes a New World of "non-lethal" biological and chemical weapons, and warfare applications, that are being waged against defenseless civilians. Regardless of what you now think, you are being manipulated and lethally affected, and this intelligence may be crucial to you and your family's survival. Death in the Air: Globalism, Terrorism and Toxic Warfare (ISBN: 0-923550-30-5) delivers the most heretical message in the annals of world health and American medicine, backed by the most astonishing hard-hitting documents ever revealed. Here, veteran investigator, Dr. Len Horowitz, the award-winning author of the national bestseller, Emerging Viruses: AIDS & Ebola: Nature, Accident or Intentional? relays how and why populations are being insidiously victimized. Exquisitely detailed in this book are the most advanced developments in the field of population control. Genetically engineered viruses and bacteria, the latest technologies for biological warfare, and combined exposures to biochemical, metallic, and electromagnetic agents, offer a "Star Wars"-like arsenal for conducting global genocide auspiciously for "public health", "National Security", and "world peace".
