Focus on Nursing Pharmacology By Amy M. Karch MSN RN

Amy Karch has found that students learn best when concepts are built upon each other, growing from simple to complex, building on a foundation of understanding. Organized by body systems, this heavily illustrated book organizes essential nursing pharmacology information into focused, easy-to-learn steps. Building key concepts upon each other, the text gives students a solid foundation of understanding. Easy to understand drug prototype boxes are integrated throughout the book as well as integrated content summaries. Contains more images depicting drug actions than any of the book's competitors. Includes the popular and proven "Focus on" theme for drug use across the lifespan, cultural and gender considerations, evidence-based practice, patient teaching, herbal and alternative therapies and dosage calculation; including "Focus on Safe Medication Administration;" and a "Drugs in Focus" table for each classification of drugs. Focused content and focused features equal a focused student.

Drug discussions include therapeutic actions and indications, pharmacokinetics, contraindications and cautions and adverse effects. Detailed rationales are presented throughout. Each chapter opens with Learning Objectives and a Glossary of Key Terms, and ends with NCLEX-style questions, and contains a case study-based critical thinking exercise that sets up a situation, shows critical thinking, and then presents a discussion and case-based nursing care guide. Features like this make the book an essential teaching tool!

Included in this package is Lippincott's Photo Atlas of Medication Administration (ISBN 9781451112481) which uses the nursing process format to provide step-by-step nursing skills.

Editorial Review

Users Review

From reader reviews:

Lillian Robbins:

As people who live in the actual modest era should be up-date about what going on or facts even knowledge to make these people keep up with the era and that is always change and progress. Some of you maybe can update themselves by studying books. It is a good choice for you personally but the problems coming to an individual is you don't know what one you should start with. This Focus on Nursing Pharmacology is our recommendation so you keep up with the world. Why, because book serves what you want and wish in this era.

Jennifer Joseph:

Reading can called brain hangout, why? Because when you are reading a book mainly book entitled Focus on Nursing Pharmacology your head will drift away trough every dimension, wandering in most aspect that maybe unfamiliar for but surely can be your mind friends. Imaging every single word written in a guide then become one web form conclusion and explanation that will maybe you never get ahead of. The Focus on Nursing Pharmacology giving you yet another experience more than blown away your brain but also giving you useful facts for your better life in this era. So now let us explain to you the relaxing pattern the following is your body and mind will be pleased when you are finished looking at it, like winning a sport. Do you want to try this extraordinary spending spare time activity?

Edward Chavez:

Focus on Nursing Pharmacology can be one of your basic books that are good idea. We all recommend that straight away because this publication has good vocabulary that will increase your knowledge in language, easy to understand, bit entertaining however delivering the information. The copy writer giving his/her effort that will put every word into satisfaction arrangement in writing Focus on Nursing Pharmacology yet doesn't forget the main point, giving the reader the hottest along with based confirm resource info that maybe you can be one of it. This great information could drawn you into new stage of crucial considering.

Jennifer Powell:

As a student exactly feel bored to help reading. If their teacher questioned them to go to the library or to make summary for some e-book, they are complained. Just very little students that has reading's heart and soul or real their passion. They just do what the professor want, like asked to the library. They go to generally there but nothing reading really. Any students feel that reading through is not important, boring and can't see colorful photographs on there. Yeah, it is for being complicated. Book is very important for you

personally. As we know that on this time, many ways to get whatever we really wish for. Likewise word says, many ways to reach Chinese's country. Therefore , this Focus on Nursing Pharmacology can make you really feel more interested to read.
