Doing Gender Diversity: Readings in Theory and Real-World Experience From Brand: Westview Press

This cutting-edge reader demonstrates the multiple ways in which the universe of gender is socially, culturally, and historically constructed. The selections focus on gender itself—how gender operates socioculturally, exists, functions, and is presented in micro and macro interactions. In order to avoid balkanization, the authors examine the various ways in which culture intersects with individuals to produce the range of presentations of self that we call “gender,” from people born male who become adult men to lesbian women to transmen, and everyone else on the diverse gender spectrum.

Editorial Review

Review

"Gender is a big topic to tackle. But if any new book on the subject were to find a place for itself in the queer academic canon, *Doing Gender Diversity* surely would be it." --Curve, April 2010 - Rachel Pepper

...a skillfully edited collection of eye-opening accounts of gender issues from multiple perspectives.... Everyone can take something away from *Doing Gender Diversity*. --Feminist Review, November 2009

"Finally, the quintessential collection of gender and sexuality studies readings. Plante and Maurer have brought together an interdisciplinary reader that spans the breadth of the field...A fundamental addition to anyone's library."

—**Lisa Jean Moore, Purchase College, State University of New York**

"Plante and Maurer's *Doing Gender Diversity* is a highly innovative anthology that critically examines unexplored and taken for granted aspects of gender normalcy and gender privilege. This reader is a comprehensive collection of classical and contemporary works that is a must-read for a diversity of gender scholars across multiple fields."

—**Sharon E. Preves, Hamline University**

"This deeply thought-provoking collection of new and classic essays is a must for students of gender and genders in all their complexities."

—**Peggy J. Kleinplatz, University of Ottawa**

"This is an excellent anthology that will encourage undergraduate students to think critically about gender diversity. It will be useful for faculty members teaching social science courses about gender or women's studies and who want to have a rich collection of readings about gender in micro- and macro-contexts. Students will enjoy and learn from the readings in this new anthology."

—**Teaching Sociology**

"Plante and Maurer have brought together a collection that recognizes and wrestles with the diversity that characterizes contemporary gender studies, identity, and expression. *Doing Gender Diversity* is a well-considered text that promises to advance students' theoretical and empirical understandings of gender, race, class, and sexuality."

—**Jessica Fields, San Francisco State University**

"In *Doing Gender Diversity*, Plante and Maurer have assembled an outstanding collection of readings that explore the cultural construction and personal negotiation of gender by looking at diversity in practices and performances. Avoiding the trap of presenting gender diversity as 'freaks on parade,' they compile works examining normative and non-normative ways of embodying gender in the context of hegemonic ideologies of gender. While US-focused, this reader incorporates a diverse selection of classic theoretical works, contemporary empirical analyses, and first-person narratives and provides an excellent foundation for undergraduate explorations of the diverse ways of 'doing' gender."

—**Erin Calhoun Davis, Cornell College**
