Editorial Review

From the Back Cover
This account of U.S. carrier development, based on the internal files of the U.S. Navy, presents a complete evolutionary design history at a level of detail and accuracy never before approached. The author, a recognized authority on U.S. warships, uncovers the issues behind the emergence of today's carrier, explaining the reasons for the periodic but always aborted attempts to trim back its dimensions.

About the Author
Norman Friedman is a prominent naval analyst and the author of more than thirty books covering a range of naval subjects, from warship histories to contemporary defense issues. He is a longtime columnist for *Proceedings* magazine and lives in New York City.

Users Review

From reader reviews:

Malissa Conlin:

The experience that you get from U.S. Aircraft Carriers: An Illustrated Design History could be the more deep you rooting the information that hide within the words the more you get serious about reading it. It doesn't mean that this book is hard to know but U.S. Aircraft Carriers: An Illustrated Design History giving you buzz feeling of reading. The article author conveys their point in particular way that can be understood by simply anyone who read it because the author of this reserve is well-known enough. This specific book also makes your current vocabulary increase well. Therefore it is easy to understand then can go together with you, both in printed or e-book style are available. Shawna Vaughn:

A lot of people always spent their own free time to vacation or even go to the outside with them friends and family or their friend. Did you know? Many a lot of people spent they free time just watching TV, as well as playing video games all day long. If you need to try to find a new activity here is look different you can read the book. It is really fun for yourself. If you enjoy the book which you read you can spent 24 hours a day to reading a book. The book U.S. Aircraft Carriers: An Illustrated Design History it is quite good to read. There are a lot of people who recommended this book. These were enjoying reading this book. In the event you did not have enough space to bring this book you can buy typically the e-book. You can m0ore quickly to read this book through your smart phone. The price is not too costly but this book offers high quality.

Jeanne Crank:

Exactly why? Because this U.S. Aircraft Carriers: An Illustrated Design History is an unordinary book that the inside of the reserve waiting for you to snap it but latter it will jolt you with the secret this inside.

Reading this book next to it was fantastic author who also write the book in such remarkable way makes the content inside of easier to understand, entertaining way but still convey the meaning thoroughly. So , it is good for you for not hesitating having this anymore or you going to regret it. This phenomenal book will give you a lot of rewards than the other book have such as help improving your skill and your critical thinking approach. So , still want to delay having that book? If I ended up you I will go to the publication store hurriedly.

Betty Abbott:

Reading a book to get new life style in this 12 months; every people loves to study a book. When you go through a book you can get a great deal of benefit. When you read books, you can improve your knowledge, simply because book has a lot of information in it. The information that you will get depend on what forms of book that you have read. If you want to get information about your study, you can read education books, but if you act like you want to entertain yourself you are able to a fiction books, these kinds of us novel, comics, as well as soon. The U.S. Aircraft Carriers: An Illustrated Design History will give you new experience in reading through a book.
