by Jules Verne

Considered the father of the science-fiction genre, Jules Verne wrote novels presaging many modern developments. Around the World in Eighty Days is one of the most famous ones. The language is intermediate to advanced level. It is now offered in paragraph by paragraph translation (original French and English). Although both works separately are in the public domain, the paragraph by paragraph arrangement is new. Furthermore, many of the paragraphs have been broken down into smaller units for easy reading.

The primary aim of the series is to provide authentic reading experience by great authors for intermediate to advanced language learners. Paragraph by paragraph translation facilitates quick grammar and vocabulary checks. Some people learn quite well by studying, while others may learn much more efficiently on the basis of actual texts.
