Mastering IPython 4.0

By Thomas Bitterman

Mastering IPython 4.0 By Thomas Bitterman

Key Features

- Most updated book on Interactive computing with IPython 4.0;
- Detailed, example-rich guide that lets you use the most advanced level interactive programming with IPython;
- Get flexible interactive programming with IPython using this comprehensive guide

Book Description

IPython is an interactive computational environment in which you can combine code execution, rich text, mathematics, plots, and rich media.

This book will get IPython developers up to date with the latest advancements in IPython and dive deep into interactive computing with IPython. This an advanced guide on interactive and parallel computing with IPython will explore advanced visualizations and high-performance computing with IPython in detail.

You will quickly brush up your knowledge of IPython kernels and wrapper kernels, then we'll move to advanced concepts such as testing, Sphinx, JS events, interactive work, and the ZMQ cluster. The book will cover topics such as IPython Console Lexer, advanced configuration, and third-party tools.

By the end of this book, you will be able to use IPython for interactive and parallel computing in a high-performance computing environment.

What you will learn

- Develop skills to use IPython for high performance computing (HPC)
- Understand the IPython interactive shell
- Use XeroMQ and MPI to pass messages
- Integrate third-party tools like R, Julia, and JavaScript with IPython
- Visualize the data
- Acquire knowledge to test and document the data
- Get to grips with the recent developments in the Jupyter notebook system

About the Author

Thomas Bitterman has a PhD from Louisiana State University and is currently

an assistant professor at Wittenberg University. He previously worked in the industry for many years, including a recent stint at the Ohio Supercomputer Center. Thomas has experience in such diverse areas as electronic commerce, enterprise messaging, wireless networking, supercomputing, and academia. He also likes to keep sharp, writing material for Packt Publishing and O'Reilly in his copious free time.

Table of Contents

1. Using IPython for HPC
2. Advanced Shell Topics
3. Stepping Up to IPython for Parallel Computing
4. Messaging with ZeroMQ and MPI
5. Opening the Toolkit – The IPython API
6. Works Well with Others – IPython and Third-Party Tools
7. Seeing Is Believing– Visualization
8. But It Worked in the Demo! – Testing
9. Documentation
10. Visiting Jupyter
11. Into the Future

Users Review

From reader reviews:

Marianne Guzman:

Mastering IPython 4.0 can be one of your beginner books that are good idea. We all recommend that straight away because this reserve has good vocabulary that may increase your knowledge in vocab, easy to understand, bit entertaining but nevertheless delivering the information. The article writer giving his/her effort to set every word into pleasure arrangement in writing Mastering IPython 4.0 although doesn't forget the main position, giving the reader the hottest and based confirm resource data that maybe you can be among it. This great information can certainly drawn you into brand-new stage of crucial pondering.

Kimberly Spradlin:

Are you kind of occupied person, only have 10 or maybe 15 minute in your moment to upgrading your mind expertise or thinking skill perhaps analytical thinking? Then you have problem with the book as compared to can satisfy your short time to read it because all of this time you only find e-book that need more time to be examine. Mastering IPython 4.0 can be your answer as it can be read by anyone who have those short extra time problems.

Charles Gray:

This Mastering IPython 4.0 is brand new way for you who has curiosity to look for some information since it relief your hunger associated with. Getting deeper you into it getting knowledge more you know or perhaps you who still having tiny amount of digest in reading this Mastering IPython 4.0 can be the light food for you because the information inside this book is easy to get by simply anyone. These books acquire itself in the form and that is reachable by anyone, sure I mean in the e-book type. People who think that in e-book form make them feel sleepy even dizzy this reserve is the answer. So there is not any in reading a book especially this one. You can find what you are looking for. It should be here for a person. So , don't miss the idea! Just read this e-book type for your better life along with knowledge.

David Thompson:

What is your hobby? Have you heard which question when you got scholars? We believe that that question was given by teacher to their students. Many kinds of hobby, Everyone has different hobby. And you also know that little person like reading or as studying become their hobby. You should know that reading is very important as well as book as to be the matter. Book is important thing to incorporate you knowledge, except your own personal teacher or lecturer. You find good news or update concerning something by book. Many kinds of books that can you choose to adopt be your object. One of them are these claims Mastering IPython 4.0.
