

Structural Adjustment: Theory, Practice and Impacts

By Ed Brown, Bob Milward, Giles Mohan, Alfred B. Zack-Williams

Structural Adjustment: Theory, Practice and Impacts By Ed Brown, Bob Milward, Giles Mohan, Alfred B. Zack-Williams

Structural Adjustment: Theory, Practice and Impacts examines the problems associated with Structural Adjustment Programmes (SAPs) and reveals the damaging impacts they can have. The book looks at how the debt crisis of the 1970's forced developing countries to seek external help and then reviews what constitutes as a standard adjustment programme, detailing the political, economic, social and environmental impacts of SAPs. The final section draws together theories and political responses and presents a case for alternatives to the programmes.

Editorial Review

Review

"Overall," Structural Adjustment: Theory, Practice and Impacts is an impressive piece of scholarly work. The book was well conceptualized, well structured, well written, and very accessible. The book is not only an important addition to the large compendium of literature on SAP's, but more than most others it provides the full history of these programs and a more in-depth analysis of SAP's... "Economic Geography April 2002 ."
