

Ophthalmology: Clinical and Surgical Principles

From Brand: Slack Incorporated

Ophthalmology: Clinical and Surgical Principles From Brand: Slack Incorporated

Ophthalmology: Clinical and Surgical Principles is a comprehensive, yet, accessible guide to medical and surgical ophthalmology that succinctly addresses the diagnosis and treatment of all major diseases of the eye.

Louis E. Probst, Julie H. Tsai, and George Goodman, along with the 16 world expert subspecialty contributors, have organized the concise, clinically focused, and user-friendly chapters by subspecialty and include the indications, techniques, and complications of common ophthalmic surgical procedures. This attentive chapter organization reflects the way modern-day ophthalmology is practiced.

Ophthalmology: Clinical and Surgical Principles delivers practical emphasis, allowing the reader to apply the information into a clinical setting. Residents will additionally benefit from the surgical options discussed for specific disorders.

Features:

- More than 400 high-quality diagrams, figures, and color photographs.
- Diagrams, tables, and figures to facilitate comparisons and assimilation of the information.
- References to provide a starting point for further study and research.
- Study questions at the conclusion of each chapter to allow readers to test their knowledge and prepare for important examinations.

Ophthalmology: Clinical and Surgical Principles is comprehensive and practical enough to be a complete resource for the ophthalmologist, ophthalmology resident, optometrist, as well as family physicians, medical students, and ophthalmic technician.

Editorial Review

About the Author

As National Medical Director of TLC The Laser Eye Centers, the largest laser vision provider in North America, *Louis E. Probst, MD* has performed over 100,000 LASIK procedures over 16 years; has written 5 reference textbooks on refractive surgery and LASIK, over 80 book chapters on ophthalmology and LASIK, and over 50 articles in peer-reviewed publications; and has designed 10 instruments for LASIK. Dr. Probst has given hundreds of lectures at national and international level meetings on his various innovations and insights into improving patient outcomes in ophthalmology and refractive surgery.

Dr. Probst has been an innovator in many refractive surgery techniques that include the treatment of LASIK flap striae, cross cylinder ablation techniques for the treatment of high mixed astigmatism, bioptics for the correction of high hyperopic astigmatism, single-use instrumentation for LASIK, flap/zap femtosecond LASIK, custom zone CustomVue LASIK, and customized oval flap LASIK techniques.

Dr. Probst serves as the chief surgeon at several TLC laser center locations in Illinois, Wisconsin, South Carolina, and Florida and is a member of the Clinical Advisory Group of TLC to which provides guidance and recommendation for over 500 ophthalmologists and 5000 optometrists who work within the TLC system. Dr. Probst also serves as a trainer and educator at TLC for surgeons interested in learning about the latest techniques and technology. Dr. Probst also trains residents and fellows in ophthalmology as a volunteer assistant professor at the University of Wisconsin.

Julie H. Tsai, MD is an Assistant Professor of Ophthalmology and is heavily involved in resident training. She has served as the Residency Program Director for 2 training programs and continues to promote ophthalmic education and mentorship through her work in various committees and organizations on both local and national levels. She has written several chapters and peer-reviewed publications and has been an invited lecturer on topics involving anterior segment reconstruction, cornea, and uveitis.

George Goodman, OD currently serves as the Senior Manager of Clinical Affairs for Refocus Group, Inc, in Dallas, Texas. Prior to working for a medical device company, Dr. Goodman served as the Clinical Director at TLC The Laser Eye Centers in Chicago where he worked for the National Medical Director, Dr. Louis E. Probst. Before relocating to Chicago, Dr. Goodman was the Co-Founder and Clinical Director of Advanced Laser Center of Oklahoma in his hometown of Oklahoma City, Oklahoma. He began his career by working with his father and grandfather in private practice.

Dr. Goodman has the following associations: Board Member of the Optometric Council on Refractive Technology (OCRT); Co-Founder of the Optometric Education Council of America (OEC); Speaker—Inspire, Allergan, Alcon, Zeiss; Adjunct Faculty—Northeastern State University Oklahoma College of Optometry; Member—American Optometric Association (AOA), Oklahoma Association of Optometric Physicians (OAOP), and Illinois Optometric Association (IOA). Dr. Goodman previously served on the Board of Directors and the Medical Advisory Board for the Oklahoma Lupus Association. Dr. Goodman has written and published 3 books. He also served as the author and executive editor of “Focus on Co-Management,” TLC The Laser Eye Center’s monthly affiliate newsletter.

Users Review

From reader reviews:

Ella Butler:

As people who live in the particular modest era should be change about what going on or facts even knowledge to make these people keep up with the era and that is always change and move forward. Some of you maybe will certainly update themselves by studying books. It is a good choice to suit your needs but the problems coming to anyone is you don't know what type you should start with. This Ophthalmology: Clinical and Surgical Principles is our recommendation to cause you to keep up with the world. Why, because book serves what you want and wish in this era.

Alexander Macdougall:

Spent a free time to be fun activity to do! A lot of people spent their free time with their family, or their friends. Usually they doing activity like watching television, gonna beach, or picnic in the park. They actually doing ditto every week. Do you feel it? Would you like to something different to fill your own personal free time/ holiday? Might be reading a book is usually option to fill your no cost time/ holiday. The first thing that you will ask may be what kinds of publication that you should read. If you want to consider look for book, may be the publication untitled Ophthalmology: Clinical and Surgical Principles can be good book to read. May be it can be best activity to you.

James Koenig:

Reading a book to be new life style in this season; every people loves to study a book. When you study a book you can get a wide range of benefit. When you read publications, you can improve your knowledge, simply because book has a lot of information on it. The information that you will get depend on what types of book that you have read. If you want to get information about your study, you can read education books, but if you want to entertain yourself look for a fiction books, such us novel, comics, and also soon. The Ophthalmology: Clinical and Surgical Principles will give you a new experience in studying a book.

Cheri Adamo:

As we know that book is vital thing to add our understanding for everything. By a publication we can know everything you want. A book is a list of written, printed, illustrated or blank sheet. Every year ended up being exactly added. This reserve Ophthalmology: Clinical and Surgical Principles was filled concerning science. Spend your extra time to add your knowledge about your scientific disciplines competence. Some people has several feel when they reading some sort of book. If you know how big benefit from a book, you can experience enjoy to read a reserve. In the modern era like at this point, many ways to get book which you wanted.
