

Comparative Health Information Management

By Ann Peden

Comparative Health Information Management By Ann Peden

Break into the exciting field of HIM with COMPARATIVE HEALTH INFORMATION MANAGEMENT, 4e! Whether you see yourself working in a hospital, clinic, or office, this text can help you find the ideal career. Chapters explore a variety of settings, including hospitals, ambulatory clinics and medical offices, veterinary practices, home health, long-term care, and correctional facilities, as well as emerging practice areas in professional consulting and cancer registry. Focused on the challenges of managing and protecting the flow of information across sites, this updated text introduces you to the health care system, then walks you through the many HIM roles available to you, infusing discussions with key terms, self-test questions, web links, and illustrations that add meaning to concepts. Features include realistic case studies to help you solve problems, while new "Professional Spotlight" vignettes give you an insider view of actual professionals in their HIM careers.

Editorial Review

Review

"I don't know of any other textbook that covers HIM in various health care settings to the extent this one does. It is comprehensive, consistent in organization, and well written. Very thorough discussion of this care setting is given. I appreciate the details given in the section on documentation. The Reimbursement section is very well detailed. I can't say enough good about the level of useful detail given."

"It is a concise and focused text with valuable assignments and critical thinking questions."

About the Author

Ann Peden is Professor of Health Informatics and Information Management at the University Mississippi Medical Center's School of Health-Related Professions in Jackson, Mississippi. Formerly a member of the Board of the Commission on Accreditation of Health Informatics and Information Management Education (CAHIIM), Dr. Peden has also served as President of both the Louisiana Medical Record Association and the Mississippi Health Information Management Association. She earned her PhD from the University of Mississippi and an MBA from Louisiana Tech University in Ruston, Louisiana, where she also taught in the health information management programs.

Users Review

From reader reviews:

Kyle Coffman:

Do you have favorite book? In case you have, what is your favorite's book? Reserve is very important thing for us to be aware of everything in the world. Each reserve has different aim or even goal; it means that reserve has different type. Some people feel enjoy to spend their the perfect time to read a book. They are really reading whatever they get because their hobby is actually reading a book. Think about the person who don't like examining a book? Sometime, individual feel need book whenever they found difficult problem as well as exercise. Well, probably you will want this Comparative Health Information Management.

Della Richardson:

Reading a publication can be one of a lot of task that everyone in the world really likes. Do you like reading book and so. There are a lot of reasons why people love it. First reading a guide will give you a lot of new data. When you read a reserve you will get new information because book is one of several ways to share the information or even their idea. Second, examining a book will make an individual more imaginative. When you reading through a book especially fiction book the author will bring you to imagine the story how the people do it anything. Third, it is possible to share your knowledge to others. When you read this Comparative Health Information Management, you could tells your family, friends as well as soon about yours publication. Your knowledge can inspire others, make them reading a reserve.

John Harrison:

Are you kind of active person, only have 10 or perhaps 15 minute in your morning to upgrading your mind skill or thinking skill also analytical thinking? Then you are having problem with the book compared to can satisfy your small amount of time to read it because this all time you only find publication that need more time to be go through. Comparative Health Information Management can be your answer mainly because it can be read by a person who have those short extra time problems.

Joseph Mesta:

Many people spending their period by playing outside together with friends, fun activity along with family or just watching TV all day every day. You can have new activity to shell out your whole day by reading through a book. Ugh, think reading a book really can hard because you have to take the book everywhere? It ok you can have the e-book, having everywhere you want in your Smart phone. Like Comparative Health Information Management which is getting the e-book version. So , why not try out this book? Let's view.
