### Henri Bergson: Key Writings (Athlone Contemporary European Thinkers) By Henri Bergson

This volume brings together generous selections from his major texts: Time and Free Will, Matter and Memory, Creative Evolution, Mind-Energy, The Creative Mind, The Two Sources of Morality and Religion and Laughter. In addition it features material from the Melanges never before translated in English, such as the correspondence between Bergson and William James. The volume will be an excellent textbook for pedagogic purposes and a helpful source book for philosophers working across the analytic/continental divide.

#### Review

"Henri Bergson: Key Writings will change the way we will think about Twentieth Century philosophy. It includes selections from all of Bergson's important published texts and English translations of other never before translated texts. Ansell-Pearson and Mullarkey have done a great job; their Preface to the volume is one of the best introductions to (and expansions of) Bergson's philosophy available in any language."—Leonard Lawlor, University of Memphis
