

International Trade and Agriculture: Theories and Practices

By *Won W. Koo, P. Lynn Kennedy*

International Trade and Agriculture: Theories and Practices By Won W. Koo, P. Lynn Kennedy

In an increasingly globalized world, an understanding of the role of international trade is central to the study of agricultural economics and agribusiness. This text interweaves these two elements, explaining the theories and practices relevant to agricultural trade. Using real-life examples to explain theories and models, the text prepares readers to critically examine agricultural trade issues. In addition to its comprehensive coverage, each chapter features chapter overviews and summaries, key concepts, questions for review, and suggested readings.

- Explains the theories and practices relevant to agricultural trade.
- Uses real-life agricultural examples to convey theories and models.
- Offers an international perspective on an increasingly globalized market.
- Features extensive pedagogical material, including chapter overviews and summaries, key concepts, review questions, and suggested readings.

From the Back Cover

An understanding of international trade is essential to the study of agricultural economics and agribusiness. *International Trade and Agriculture* examines the relationship between agriculture and the world of international trade; among the topics covered are trade theories and policies affecting trade flows, macroeconomics issues such as exchange rates and the balance of trade, foreign direct investment, and the impact of international trade on economic development and the environment. Each chapter features overviews and summaries, key concepts, questions and tasks for review, and suggested readings. With its international focus, agricultural perspective, and engaging pedagogy, this text offers an innovative and accessible approach to the study of agricultural trade.

Users Review

From reader reviews:

Paul McKinney:

Information is provisions for anyone to get better life, information these days can get by anyone from everywhere. The information can be a know-how or any news even a problem. What people must be consider when those information which is inside former life are hard to be find than now is taking seriously which one works to believe or which one the actual resource are convinced. If you have the unstable resource then you obtain it as your main information there will be huge disadvantage for you. All those possibilities will not happen throughout you if you take International Trade and Agriculture: Theories and Practices as the daily resource information.

Alexandra Dickey:
